

ENGINEERING JOURNAL English Edition

No. 159E 80TH ANNIVERSARY EDITION

SEPTEMBER 2001

CONTENTS

FOREWORDS	1	A Company Worthy of International Respect Hiroshi INOUE Chairman
	2	Providing New Value and Technology Akinobu MATSUDA Senior Advisor to the Board, ex Vice President
FOR THE 80TH ANNIVERSARY	3	Rolling Element Bearing Technology – Has It Been Matured ? Professor Yoshitsugu KIMURA Vice President, Kagawa University
	4	For Memories of the 80th Anniversary of Koyo Seiko Co. Foundation Professor Hiroshi YABE Osaka Electro-Communication University
	5	Sustainable Development for Automobile Industries is Strongly Dependent on Improvement and Progress of Mechanical Components Professor Takashi YAMAMOTO Department of Mechanical Systems Engineering, Tokyo University of Agriculture and Technology
	6	Challenge of Engineers for the 21st Century Professor Masanori MURAKAMI Department of Materials Science and Engineering, Kyoto University
	7	Steering Technology in Advanced Information World Professor Shigeru OKUMA Electrical Engineering, Graduate School of Engineering, Nagoya University
	8	From Fly-by-Wire to Steer-by-Wire System Professor Hiromitsu KUMAMOTO Department of Systems Science, Graduate School of Informatics, Kyoto University
SPECIAL CONTRIBUTION	9	Kaleidoscope of Researches Professor Masato TANAKA Graduate School of Engineering, The University of Tokyo
COMMEMORATIVE LECTURE	14	Lubrication of Rolling Bearings – Special lecture for the 80th anniversary at Koyo – Professor Bo Jacobson Machine Elements Division, Lund Institute of Technology, SWEDEN
TECHNICAL TRENDS	18	Trends in Basic Technology of Rolling Bearing Hajime ARAI, Executive Director
	23	Trends and Future Prospects for Rolling Bearing Technologies Yoshikiyo YUKAWA, ex Director
	31	Trends of Production Engineering for Bearings and Unit Products Keiji MORITA, Senior Executive Director

	37	Trends and Future Prospects Regarding Steering System Technology Masahiko NOGUCHI, Director
TECHNICAL PAPERS	42	Development of High-Temperature Superconducting Flywheel Energy Storage System
	47	Research on Crowning Profile to Obtain Maximum Load Carrying Capacity for Roller Bearings
	53	Analysis of Frictional Torque in Raceway Contacts of Tapered Roller Bearings
	61	Analysis of Hammering in Power Steering System by Simulation
TECHNICAL REPORTS	67	Development of an Electric Pump Unit for Drive Trains
	71	Development of Direct Release Cylinder (DRC)
	74	Development of Control Method for Hydraulic-Electro Power Steering System Using Brushless DC Motor
	81	Influence of Contaminants in Oil on Oil Seal Performance
	85	Introduction of 3D CAD in Bearing Development
SERIES	91	Basic Technology Series of Bearings (1) Life Improvement with Newly Developed Materials and Heat-treatment
NEW PRODUCTS	97	SOLPACK Drawn Cup Needle Roller Bearing
	98	Double-Row Cylindrical Roller Bearing with Aligning Housing Ring for Paper Machinery
	100	High Ability Bearing Series for Machine Tool Main Spindles
	102	Middle Operating Angle Constant Velocity Steering Joint
TECHNICAL CENTERS	103	KOYO SEIKO CO., LTD. NORTH AMERICAN TECHNICAL CENTER, A-TEC
	105	KOYO SEIKO CO., LTD. EUROPEAN TECHNICAL CENTRE, E-TEC
	107	KOYO STEERING EUROPE S.A.S. KOYO EUROPEAN TECHNICAL CENTER, KTEC
	109	KOYO STEERING SYSTEMS OF USA INC. STEERING TECHNICAL CENTER
TOPICS	111	Koyo Bearings and Related Products Applied in the Environmentally Friendly 8-Wheel Electric Vehicle
	113	Japan Fine Ceramics Association Industrial Promotion Prize Awarded
	114	Koyo Received JSAE Technical Development Award
	115	80th Anniversary Event "Idea Contest"
