CONTENTS

FOREWORD  1 Establishment of Company on Basis of Technology
           Taisuke SENOO
           Senior Executive Director

CONTRIBUTION  2 Latest Frontiers of Nanomaterials Research
               − Perspective on ECAP Method −
               Professor Satoshi HASHIMOTO
               Laboratory of Physics and Mechanics of Materials,
               Department of Intelligent Materials Engineering,
               Faculty of Engineering, Osaka City University

SURVEYS  10 Koyo Production System and Machines & Equipments for Rolling Bearings
         14 History of Sealing Devices and Recent Technical Trends of Helix Seals

TECHNICAL PAPERS  18 Effect of Lubricant Film Thickness on Bearing Life under Contaminated Lubrication
                     Part 1: Life Tests for Ball Bearings in Contaminated Oil
                     22 Development of Super-low Friction Torque Technology for Tapered Roller Bearing
                     29 Development of Compact Flywheel Energy Storage System (ComFESS)

TECHNICAL REPORTS  35 Improvement of Simulation Technology for Analysis of Hub Unit Bearing
                    40 Development of Super-low Friction Torque Tapered Roller Bearing for Drive Pinion Axle
                    45 Development of Split Type Slewing Rim Bearings
                    54 Development of Low-cost Steering Columns
                    59 Development of Non-contact Type Torque Sensor for Electric Power Steering
                       Using Green Compact Core Component
                    66 Development of ITRON Controller for Vertical Furnace

NEW PRODUCTS  69 Electronically Controlled Hydraulic Power Steering Systems
               71 Centerless Grinding Machine for Form Grinding of Micro Tools
               74 Oil Seals for High-Pressure and High-Speed Application
               75 Rapid Thermal Processing System for 300mm Wafer
               76 Multi-Axis Soft-Motion Controller KSMU-08

PATENTS  77 Resin Pulley, Rolling Bearing Unit for Vehicle Axle
         78 Torque Sensor, Universal Joint

OVERSEAS AFFILIATED COMPANY  79 THAI KOYO CO., LTD. – TK –

TOPIC  81 Paris Auto Show 2004
        − Koyo Exhibited "Integrated Vehicle Control Technology and Environmentally Friendly Products" −

INTERNATIONAL NETWORK
